PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with hands-on experience building and maintaining enterprise-level Student Information Systems. Proficient in Laravel, Vue.js, and RESTful APIs with a strong background in system architecture, deployment, and cross-functional collaboration. Proven ability to lead development cycles from planning to production.

TECHNICAL SKILLS

Languages: PHP, JavaScript, HTML, CSS, SQL

Frameworks: Laravel, Vue.js, React.js, Bootstrap, Tailwind CSS

Tools & Platforms: Git, Docker, Ubuntu Server, VSCode, ClickUp, Jira

Databases: MySQL

Concepts: RESTful API Design, MVC Architecture, Agile Development

WORK EXPERIENCE

Systems Developer | *La Verdad Christian College, Inc. – Apalit, Pampanga* Mar. 2026 – Present

- Develop, maintain, and enhance a large-scale multi-module Student Information System used by hundreds of students, faculty, and staff
- Collaborate with department heads to gather requirements and deliver features aligned with institutional workflows
- Implement role-based access control, automated grade progression, and document management modules

Student Information System Support Staff | *La Verdad Christian College, Inc. – Apalit, Pampanga*
Jan. 2025 – Mar. 2026

- Tested and validated system features prior to deployment, ensuring quality and stability
- Conducted user training sessions for non-technical staff and faculty
- Managed bug reports and coordinated resolutions with the development team

Systems Engineer | *Kaizo Enterprises Co.* Apr. 2024 – Sept. 2024

- Led maintenance and continuous improvement of a core web-based Information Management System
- Mentored junior developers and facilitated smooth knowledge transfer and team handover

Systems Engineer Intern | *Kaizo Enterprises Co.* Feb. 2024 – Apr. 2024

- Pioneered planning, development, testing, and deployment of a foundational web-based IMS from scratch
- Self-hosted the application on an in-house Ubuntu Server, managing full deployment pipeline

NOTABLE PROJECTS

FilePilot (2025) — *Laravel • MySQL*

- Document Management Information System for a Registrar's Office — automates status updates to document requestors and digitizes the request workflow

Incident Report Information Management System (2024) — *React • Laravel • MySQL*

- Dual-platform system (mobile + web) for public incident reporting and management — awarded Best in Capstone at La Verdad Christian College

Loan Management System (2024) — *Laravel • Bootstrap • MySQL*

- Web-based system for scheduling and managing loan records with automated ledger report generation

Desk (2023) — *React • Laravel • MySQL*

- Hot-desking platform for managing work desk allocation across multiple work environments

Keep (2022) — *PHP • MySQL*

- Web-based password manager with custom user password hashing implementation

EDUCATION

Bachelor of Science in Information Systems

2024

La Verdad Christian College, Inc. — Apalit, Pampanga

Best in Capstone Awardee — Incident Report Information Management System
