EDUCATION

La Verdad Christian College, Inc. — Apalit, Pampanga

Bachelor of Science in Information Systems | 2024

- Best in Capstone Awardee — Incident Report Information Management System

EXPERIENCE

La Verdad Christian College, Inc. — Apalit, Pampanga

Systems Developer | Mar. 2026 – Present

- Developed, maintained, and enhanced a large-scale multi-module Student Information System used by hundreds of students, faculty, and staff
- Collaborated with department heads to gather requirements and deliver features aligned with institutional workflows
- Implemented role-based access control, automated grade progression, and document management modules

La Verdad Christian College, Inc. — Apalit, Pampanga

Student Information System Support Staff | Jan. 2025 – Mar. 2026

- Tested and validated system features prior to deployment, ensuring quality and stability
- Conducted user training sessions for non-technical staff and faculty
- Managed bug reports and coordinated resolutions with the development team

Kaizo Enterprises Co. — Novaliches, Quezon City

Systems Engineer | Apr. 2024 – Sept. 2024

- Led maintenance and continuous improvement of a core web-based Information Management System
- Mentored junior developers and facilitated knowledge transfer and team handover

Kaizo Enterprises Co. — Novaliches, Quezon City

Systems Engineer Intern | Feb. 2024 – Apr. 2024

- Pioneered planning, development, testing, and deployment of a foundational web-based Information Management System from scratch
- Self-hosted the application on an in-house Ubuntu Server and managed the full deployment pipeline

SELECTED PROJECTS

Nasaan Ba? (2026) — React.js

- A personal inventory and location management application designed to answer one simple question: Nasaan ba yung gamit ko? The user records personal belongings and the exact physical location where they are stored.
